Keep-Off Spray

- designed to keep dogs and cats away from certain places • prevents scratching and biting on treated objects • long-lasting: effective for up to 4 weeks

Recommendations for use:

- spray the area you want to keep the animal away from from a distance of approx. 30 cm
- repeat the procedure every 4 weeks

Take care when using biocides. Always read the label and product information before use!

Please note that, due to legal conditions, sale is only permitted in Germany, Austria and France.

	Ref. no.	Contents		€	Active ingredient
 4 018653 282670	80083	125 ml / Spray bottle	1/6		geranium oil

Bug Spray

- for spatial use • effective in controlling parasites, and prevents re-infestation in the long-term • leaves a pleasant scent • immediately effective, lasts for up to 3 weeks • against parasites such as fleas, lice, mites, or similar pests

Recommendations for use:

- for prevention/protection, the areas which are infested or to be protected should be sprayed from a distance of approx. 50 cm with 4 - 5 passes • in case of persistent infestation, repeat the procedure 1 x a week

Do not use on animals!

Take care when using biocides. Always read the label and product information before use!

Please note that, due to legal conditions, sale is only permitted in Germany, Austria and France.

Oster Nail File gentle paws

Wireless

The Oster gentle paws nail file is ideal for the stress-free trimming of your four-legged friend's claws. It is suitable for use on dogs and cats and, thanks to its high torque, is also suitable for tough claws. The adjustable safety cap catches filed-off pieces of claw, making cleaning easier and preventing excessive trimming. An LED lamp is integrated for better use on the animal. Thanks to the motor's low power consumption, one battery charge can run the product for up to 70 minutes. The filing stone is supplied with a medium-coarse filing belt for shortening claws and a fine filing belt for rounding corners and sharp edges. The ergonomically shaped handle allows fatigue-free working.

- gentle, fast and easy claw filing
- cordless, battery-powered construction for effortless and single-handed trimming
- adjustable safety cap for different claw sizes
- two speed settings
- LED guide light
- particularly quiet for stress-free filing
- operated with: 4 x 1.5 V - AA (Mignon)
- Battery not included

Included in delivery: 1 x nail file, 1 x grinding roller, 1 x medium-coarse sanding belt, 1 x fine sanding belt, 1 x grindstone, 1 x instruction manual

Aesculap Cutter head SnapOn

Cutter heads from Aesculap Schermaschinen are precision parts with a claim to perfection. The cutter head determines the performance of every clipper. The SnapOn cutter heads from the metal forge in Suhl/Thuringia are genuine „Made-in-Germany“ products. Exceptionally high-quality cutting tools are manufactured from top-quality carbon blanks in several production stages in accordance with medical technology guidelines. Except for the hardening process, the parts never leave the production facility.

Made in Germany

This „in-house“ production has only advantages for you:

- unmatched long cutting durability due to first-grade carbon steel
- consistently high cutting capacity of each individual cutter head thanks to state-of-the-art CNC grinding and milling equipment
- exceptional coat gliding behaviour due to high-end surface finish
- uniform and clean cutting pattern due to the specially developed tooth geometry
- extremely often, regrindable up to 7 times due to the combination of material hardness, quality and manufacturing expertise

Aesculap Cutter head with DLC coating SnapOn

The Aesculap „Diamond-like Carbon“ (DLC) coating ideally combines the property profiles of diamond- and Teflon-based surface enhancement. This special coating guarantees outstanding product properties:

- high wear protection and longer service life
- excellent gliding thanks to minimised frictional resistance
- extended edge retention
- increased corrosion protection
- reduced care requirement thanks to dirt-repellent surface

Made in Germany

- easy and quick to clip on
- individual sizes can be quickly identified thanks to the colour code

GTA129 consisting of 9 SnapOn attachment combs: 3 mm, 6 mm, 10 mm, 13 mm, 16 mm, 19 mm, 22 mm, 25 mm, 32 mm

Tip:

add the cutting length of the cutter head to the shearing height of the stainless steel clip-on comb, e.g. GT330 1.5 mm + GTA133 = shearing height 14.5 mm

Aesculap Modelling Shears Coarse

- manufactured from high-quality Japanese stainless steel, renowned for its optimal sharpness and durability
- 24 teeth with „Chunker“ (T) grind for fast working and natural coat course
- ideal for blending hard cutting edges, finishing or texturing transitional areas
- short handle parts prevent rapid-onset fatigue and make clipper movement easier
- ergonomically designed eyes with finger grooves and removable finger rest ensure maximum comfort
- easy adaptation of the cutting course with the special adjusting screw

	Ref. no.	Length	Design		€
	GTA206	19 cm	Right-handed people	1/100	

Multi-feeder base

Snack ball, feed bar and lick plate in one for dogs and cats!

Innovative design paired with multifunctional application. The multi-feeder base allows for multiple uses to keep your pet occupied.

- 3-in-1 multi-tool to occupy your pet
- Snack ball with large, lockable opening for easy filling with treats
- Lick plate with bobbled upper material made of TPR aids slower food intake and helps reduce stress
- Snack ball and lick plate can also be used individually, without the base
- Anti-Gobble Feeder with Non-Slip Rubber Bobbles
- keeps your pet mentally fit, prevents boredom and helps reduce stress
- all parts are made from high-quality and BPA-free plastic, are sturdy and are easy to clean

1. Combination snack ball in the feeder:

the snack ball is held in the feeder and therefore acts as an intelligent toy for your pet. The ball filled with treats must be turned until the treats fall out of the ball. The spring attached to the ball ensures that the treats are pushed out of the feeder and that the animal picks these up as a reward. Brain training in a fun way with rewards!

2. Lick plate on feeder combination:

In this case, the lick plate with a bobbled TPR material surface is placed on the feeder and the dog or cat is able to lick up wet food, pastes or creams from the lick plate without harming their back or joints. Licking is one of our pets' natural characteristics and helps them to relax or relieve stress. It prevents hasty eating. The bobbles on the lick plate stimulate the flow of saliva, which leads to healthy and regulated digestion.

3. Anti-gobble feeder:

the base on its own serves as a feeder for food and water. The raised areas in the feeder reduce hasty eating and drinking.

Included in delivery: 1 x Anti-Gobble Feeder (base) 700 ml, 1 x Lick Plate Ø 15.5 cm, 1 x Snack Ball Ø 11 cm (for treats max. 1.2 x 2 cm), 1 x locking mechanism for lick plate

Also suitable for on the move!

silvertex® Anti-Germ Mat

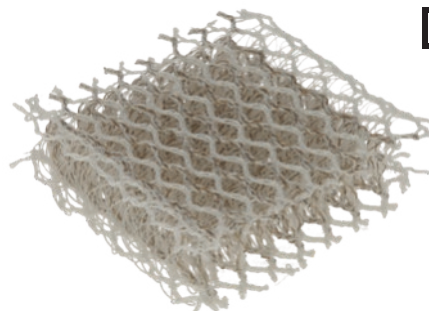

The silvertex® Anti-Germ Mat is a silver-coated textile mat for conserving water in poultry drinkers. The self-dosing system ensures permanent protection from contamination and biofilms for up to 12 months. The antimicrobial action of silver ions means the silvertex® system conserves the drinking water in your poultry drinkers. Firstly, this improves the cleanliness of the water, which benefits animal welfare, and ensures lower maintenance costs.

- reliable protection against bacteria and biofilms
- can be used in all poultry feeders
- self-dosing up to 12 months
- no formation of toxic by-products
- easy handling

73148: ideal for water conservation in mobile poultry stalls

- suitable for IBC containers up to 1000 litres
- can also be used for water conservation from rainwater barrels

PoultryNet All-In-One Kit Solar

The complete set, with all necessary components for installing an electrified mesh quickly and easily to protect poultry, dogs, cats or rabbits. With 0.4 Joules of charging energy in the solar-powered device and a close-meshed net, the animals being protected and garden are safe.

- no time-consuming modular purchases, all parts required conveniently in one box
- Solar device with Joule input: 0.4 J with intelligent battery management with deep discharge protection: 2 weeks run time without sun and long battery life
- net with particularly small mesh width in the lower area, as well as stable plastic posts with galvanised bottom tip
- The set includes the matching ground post, a multi-level fence tester and all required cables. the set also includes the electric fence warning sign, which is always required and must be attached in a clearly visible place on the mesh
- can be set up and dismantled in just a few minutes without the need for any special tools

A carefully thought-out concept and the range of products compiled by experts makes this set a real worry-free package!

Set includes: 1 x poultry net green, 50 metres, height 106 cm, double prong (3-year warranty for UV resistance of the wire), 1 x Sun Power S 250 solar device, incl. 12 Volt, 3 Watt solar module (3-year warranty), 1 x AGM battery, 12 Volt, 4 Ah (6-month warranty), 1 x 230 Volt power pack for recharging or battery maintenance during the winter months, 1 x ground connection cable (black), 1 x fence connection cable crocodile clip (red), 1 x earth rod, 1 x mesh repair kit, 1 x fence tester, 1 x warning sign, 1 x assembly instructions

PoultryNet All-In-One Kit 230 V

The all-round worry-free package, with all necessary components for installing an electrified mesh quickly and easily to protect poultry, dogs, cats, or rabbits. With 1.0 joule charging energy in the power supply and a close-meshed net, the animals to be protected and the garden are safe.

- no time-consuming modular purchases, all parts required conveniently in one box
- 230 Volt power supply with 1.0 Joule Input: compact device with unrestricted protection period thanks to mains operation
- net with particularly small mesh width in the lower area, as well as stable plastic posts with galvanised bottom tip
- The set includes the matching ground post, a multi-level fence tester and all required cables. the set also includes the electric fence warning sign, which is always required and must be attached in a clearly visible place on the mesh
- can be set up and dismantled in just a few minutes without the need for any special tools

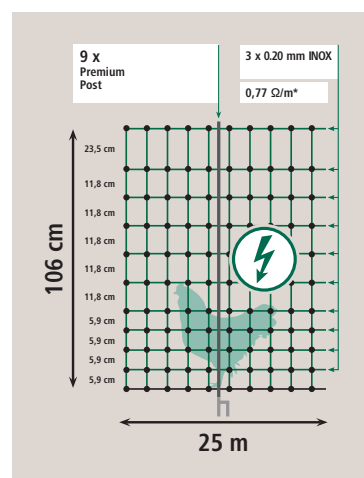

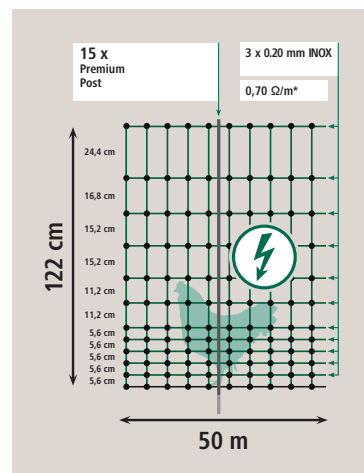

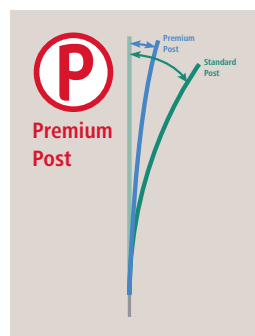

A carefully thought-out concept and the range of products compiled by experts makes this set a real worry-free package!

Set includes: 1 x poultry net green, 50 metres, height 106 cm, double prong (3-year warranty for UV resistance of the wire), 1 x Fence Device 230 Volt Mains Operation Compact Power N 700 (3 year warranty), 2 x 10 m underground cable (for connecting the device to the net and the earthing), 1 x Wire Connecting Clamp (for Connecting Fence Supply Line and Pasture Net), 1 x earth rod, 1 x mesh repair kit, 1 x fence tester, 1 x warning sign, 1 x assembly instructions

AKO PoultryNet Premium can be electrified

Our optionally electrifiable poultry nets impress with proven quality and innovative new posts. The extremely robust and stable PREMIUM posts offer absolute stability and prevent the nets from sagging. The narrow mesh size in the lower part of the net makes these nets ideal for chickens, geese and turkeys as well as for lambs.

- extremely robust and stable PREMIUM posts with galvanised ground tip
- extremely stable welded knots
- particularly small mesh width in the lower area of the net
- we offer a 3-year warranty against UV damage for all plastic poly wires

All conductors = good conductivity via 3 x 0.20 mm stainless steel conductor extremely stable welded knots

NEW: We absolutely recommend that our Premium Poultry Netting, now also available in a height of 122 cm, is electrified in combination with a suitable fence device!

Premium Poultry Net

not electrifiable

Our Premium poultry nets impress with proven quality and innovative new posts. The extremely robust and stable PREMIUM posts offer absolute stability and prevent the nets from sagging. The narrow mesh size in the lower part of the net makes these nets ideal for both chickens and lambs.

- extremely robust and stable PREMIUM posts with galvanised ground tip
- extremely stable welded knots
- particularly small mesh width in the lower area of the net
- the use of un-electrified nets is recommended especially in places where children are present or where no electrification is needed for guarding safety
- subtle colour combination blends well into the landscape or private gardens
- we offer a 3-year warranty against UV damage for all plastic poly wires

- automates the chicken coop and makes everyday work easier
- can be flexibly extended with individual modules
- connection and operation of all modules via the SmartCoop control (70600)
- Connectivity module (70620) allows operation via the app over a local WLAN

SmartCoop Control unit

The control is the heart of the SmartCoop system. All modules are connected to the control and programmed.

- 12 slots inside the housing (1 x power supply, 11 x slots for modules) • with integrated day-light sensor and LED status indicator • in combination with the connectivity module (70620), all functions can be programmed and monitored using the app • impact-resistant, dust-proof plastic housing • large, illuminated display

Automatic Control for Chicken Door Basic

The automatic control allows the flaps or sliders in poultry stalls to be automatically opened and closed.

- daylight-dependent control with light sensor • light sensor with 1 m cable allows indoor installation of controller • manual control possible via optional external button (70565)
- Battery-operated: 4 x AA Mignon (not included) • Slider weight: min 0.5 kg, max. 2.5 kg
- Housing material: Plastic

Safety features:

- A time delay on the light signal prevents unwanted opening during lightning or short-term brightness.
- If the slider encounters resistance by an animal when closing, the process is stopped and then continued.
- The device automatically switches off if there is a motor overload.

Included in delivery: basic control with integrated motor and cable pull, light sensor, mounting screws, operating instructions
